

Latvian energy storage portable power supply customization

Overview

With help of the experience and knowledge of our employees, we strive to provide customers with a complete sense of security, guaranteeing the most economically and technologically suitable solution.

Where is the first battery energy storage system in Latvia?

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 MWh in Targale, Ventspils region.

What is the most powerful electric car charging station in Latvia?

In 2018, at that point the largest generator T1900 with a V16 Mitsubishi engine of 1,900 kVA for Z-Towers was delivered and installed. In 2019, the most powerful electric car charging station in Latvia was installed at Energolukss building - 100 kW. In 2019, the delivery of solar energy solutions to customers was started.

Are new wind farms a good investment for Latvia's energy security?

I am pleased that the bar has been set high for developers of new wind farms, which also plays an important role in the context of Latvia's energy security," said Climate and Energy Minister of Latvia, Kaspars Melnis. Given the total investment in the project, the OP Corporate Bank provided loan financing.
