

Liberia integrated communication base station

Overview

What is the telecommunications sector in Liberia?

The telecommunications sector in Liberia is active and competitive, with two main players: Lonestar Cell MTN and Orange Liberia. Both are global system for mobile communications (GSM) network operators that invest in network infrastructure and services.

Does the CCL support high-speed internet in Liberia?

The CCL supports the supply of high-speed internet via fiber optic submarine cable to Liberia as part of the overall submarine cable system called ACE (Africa Coast to Europe) consortium.

Does Liberia have a postal address system?

Liberia does not have a national postal address system or a unique address system where individuals can be easily traced or contacted. The Ministry of Posts and Telecommunications (MoPT) provides some postal services, including an expedited mail service (EMS) to the United States and other countries. It also develops ICT policy.

What is CSquared doing in Liberia?

CSquared signed a licensing agreement with the Liberia Telecommunications Authority in November 2021 to extend fiber infrastructure from Monrovia to Yekepa with planned links with Guinea and Cote d'Ivoire. More than 13 towns outside of Monrovia will have broadband internet access for the first time when the project is complete.

How many mobile connections are there in Liberia 2021?

According to a Digital Liberia 2021 report, there were 3.39 million mobile connections in Liberia in 2021. This represents an increase of 19,000, or 0.6 percent, compared to the previous year.

Who provides air courier services in Liberia?

DHL, FedEx, and UPS provide air courier services in Liberia. The Liberia Telecommunication Authority (LTA) independently regulates and monitors the quality of telecommunication services while promoting fair competition. The LTA issues licenses to telecommunication and ISP companies. Licenses are valid for 12 months, renewable annually.
