

Lithium battery pack customized 48v

Overview

What is a 48V lithium ion battery?

48V lithium ion batteries, specifically LiFePO₄, offer high performance and energy efficiency of more than 96% and an energy capacity of 500KWH. BSLBATT is committed to providing the best lithium battery solutions and offers the opportunity to wholesale 48V lithium ion batteries.

What is a 48v battery pack?

Their block design is dimensionally efficient, contoured plastic case allows optimal air flow when placed next to each other. You can build 48V pack with capacity from 2kWh to 48kWh with option of further expansion by parallel strings or higher voltage. The most commonly used packs are 12V, 24V and 48V.

Can lithium ion batteries be recycled?

The demand for lithium ion batteries has been increasing lately. Our batteries can be recycled easily and with very little of a hassle. After supporting 6000+ projects, we're sure that we can do the hassle-free solution and service for you. Not only to protect your investment, but also our advanced BMS will make your battery more efficient.

Which lithium ion battery should I Choose?

Build Now! We only use the best quality lithium cells. They offer more energy and ensure that your device lasts as long as it should. If you need the batteries that needs to be charged really fast, this is your best choice. Grade A cells allow rapid charging. The demand for lithium ion batteries has been increasing lately.

Why should you choose a Grade A lithium ion battery?

They offer more energy and ensure that your device lasts as long as it should. If you need the batteries that needs to be charged really fast, this is your best

choice. Grade A cells allow rapid charging. The demand for lithium ion batteries has been increasing lately. Our batteries can be recycled easily and with very little of a hassle.
