

# **Lithium battery pack for boosting**

## Overview

---

What is a lithium jump starter?

Compact, yet powerful lithium jump starter rated at 1,000 Amps - up to 20 jump starts on a single charge. An ultra-safe and mistake-proof design with spark-proof technology and reverse polarity protection, which allow it to safely connect to any battery.

Does boost have a battery pack?

Boost's battery pack extends the life and running time of your device. It's more than just a battery jump starter pack, it's portable 12-volt power. With the GB70 Boost HD and the GB150 Boost PRO, you can go anywhere and power your favorite 12-volt devices, like a tire inflator, car jack, power inverter, coffee maker, fan and much more.

Can a boost jump start a dead battery?

Safely Jump Start A Dead Battery In Seconds. Ultra-portable, lightweight and compact, Boost's lithium-ion technology is built to jump start 12-volt batteries. The NOCO Boost jump starters outperform traditional lead-acid battery booster packs at a fraction of the size and weight. Conveniently store in a center console, trunk, or toolbox. BATTERIES.

What should I consider before buying a lithium ion battery jump starter?

Before buying a lithium ion battery jump starter, several factors must be evaluated. These include the jump starter's capacity, size, weight, and additional features. Understanding these aspects will help in selecting the right device that meets specific needs and preferences.

What is a battery booster?

It's a powerful battery booster that doubles as a portable power source for recharging USB devices, like a smartphone, tablet and more. Designed for a car, boat, RV, truck and more with gas engines up to 6 liters, and diesel

engines up to 3 liters.

What is the cost of a Lithium Ion battery?

The Duralast DL-800L is a Lithium Ion battery that costs around \$100.00 and packs 800 cranking amps into its small size, making it an ideal choice for a battery jump pack due to its light weight, compact size, and long-lasting charge.
