

Lithuanian enterprise energy storage battery manufacturer

Overview

Lithuania-based manufacturer of solar panels and batteries SoliTek has launched a new commercial and industrial (C&I) energy storage system, SoliTek VEGA, featuring its proprietary AI-powered energy management system (EMS). The high-voltage system utilizes lithium-iron-phosphate (LFP) battery cells. What is Lithuania's first commercial battery storage facility?

Located near Vilnius, this project will be the country's first commercial battery storage facility and is expected to increase Lithuania's total storage capacity by approximately 50%. The system is scheduled to begin operations by the end of 2025.

What is Lithuania's largest battery storage facility?

This project will become Lithuania's largest battery storage facility that is privately owned, boosting the country's total storage capacity by approximately 50%. The project is located near Vilnius and will be operational by the end of 2025.

How much does the EU spend on energy storage in Lithuania?

In late 2024, the EU approved a €180 million (US\$188 million) support package for over 1.2GWh energy storage in Lithuania, covering a maximum of 30% of the projects' capital expenditure costs via a competition auction set to conclude before the end of 2025.

Why does Lithuania need reliable energy storage?

Uloza pointed to the growing demand for reliable energy storage as Lithuania's renewable energy sector expands.

Where is Energija building a smart battery storage project?

Lithuanian renewables developer E energija group announced on Tuesday that it has started construction works on a 120-MWh smart battery storage project near the capital city of Vilnius. Author: Portland General Electric. License:

How much electricity does Lithuania use?

“Although the average electricity consumption in Lithuania is around 1,500 megawatts, the installed capacity of both solar and wind power plants is expected to exceed 2,000 megawatts in 2025, enabling surplus electricity to be stored and supplied to consumers during peak hours,” he noted.
