

Maldives hybrid energy storage project

Overview

POISED is the largest energy sector intervention for Maldives with a target of 30.2 megawatt-peak solar photovoltaic installations, 12.5 megawatt-hour battery energy storage systems (BESS), and energy management systems (EMS) fully commissioned in 160 islands by the end of 2026.

Maldives hybrid energy storage project

Maldives : Preparing Outer Islands for Sustainable Energy ...

The project will replace inefficient diesel-based power generation grids on the islands with hybrid systems of both renewable energy and diesel in order to reduce the cost of electricity and the ...
