

Malta large capacity energy storage battery manufacturer

Overview

What is Malta's energy storage system?

Malta's grid-scale, long-duration energy storage system helps governments, utilities, and grid operators transition to low-cost, carbon free renewable energy while enhancing energy security. Storing electricity for eight hours to eight days or longer, the solution reduces CO₂ emissions and dependence on natural gas.

Does Malta have a long-duration energy storage solution?

Malta has developed a long-duration energy storage solution leveraging steam-based heat pump technology that offers a cost- and energy-efficient, flexible, and integration-ready solution to utility and industrial clients.

Is Malta the first company to commercialize a thermoelectric energy storage system?

Christian Bruch, President and CEO of Siemens Energy, said, "Malta's innovative thermoelectric energy storage system offers a flexible, cost-effective and scalable solution for the storage of energy over long periods of time. With our support, Malta is well positioned to be the first company to commercialize such a solution globally.

Who invested in Malta energy?

CAMBRIDGE, Mass.-- (BUSINESS WIRE)--Malta Inc., a leader in long-duration energy storage, today announced that it has closed on a round of financing provided by a group of investors including Siemens Energy Ventures and Alfa Laval as well as existing shareholders Breakthrough Energy Ventures, Proman, Chevron Technology Ventures, and Piva Capital.

How efficient is Malta's thermal storage system?

Malta's system also achieves a power-to-power charge/discharge round-trip efficiency (RTE) of up to 60%, which is about 50% higher than other thermal

storage systems without heat pump charging.

What makes Malta a good energy solution?

Zero Waste, Circular Solution: Malta's solution uses non-hazardous materials, has no waste by-products, poses no long-term disposal challenges, and is 100% recyclable. Long-Duration, Longer Lifespan: Malta's solution can discharge stored energy in the form of power and/or heat from 8 hours to multiday periods.
