

Middle East Electric New Energy Storage Battery

Overview

Who is Middle East Battery Company?

Middle East Battery Company has the latest and largest advanced technology plant in the region engaged in manufacturing automotive sealed maintenance free batteries for all types of cars.

Which states are investing in battery energy storage systems?

Other states in the US are also investing in battery energy storage systems with Texas and Arizona set to record the biggest growth, increasing the nation's battery output 10-fold to 16,000 megawatts. China is also spearheading the charge for BESS.

What is BYD battery energy storage system (BESS)?

The battery energy storage systems (BESS) provided by BYD will use its new-generation MC Cube-T ESS and its pioneering Cell-to-System (CTS) integration technology. The advanced tech will deliver a Vcfs index of more than 33% – a measure of how efficiently cell volume is utilised within the system.

How will BYD's new energy storage systems work?

The new energy storage systems will be installed across five locations in the Kingdom and fully integrated into the national power transmission network. The battery energy storage systems (BESS) provided by BYD will use its new-generation MC Cube-T ESS and its pioneering Cell-to-System (CTS) integration technology.

Why should you choose BYD energy storage?

“With its leading technological advantages, exceptional delivery capabilities, comprehensive after-sales support system, and all-around comprehensive strength, BYD Energy Storage has successfully earned high praise and deep recognition from the global market, reaching the peak of the industry,” wrote BYD.

Efficient Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 50% Peak Output Power
- 2 MPPT Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules

Intelligent Simple O&M

- IP68 Protection Degree: support outdoor installation
- Smart IFT Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPDs prevent lightning damage
- Battery Reverse Connection Protection

Flexible Abundant Configuration

- Plug & Play, UPS Switching Under 10ms
- Compatible with Lead Acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation

Why battery storage investment is vital to the Middle East's clean

Investing in battery storage is crucial for a successful energy transition in the Middle East, as it enables the realisation of the full benefits of renewable energy.
