Mobile base station dedicated distribution box

Overview

What is a power distribution box (PDU)?

The PDU is sized to handle the load that the two generators can supply. Utility Distribution Boxes (UDBs) provide safe power distribution in applications requiring feed-thru to larger areas Advanced Mobile Electric Power Distribution System (AMEPDIS) is a digitally controlled, highly ruggedized power distribution unit.

What is a GE mobile substation?

GE provides complete turnkey mobile substations that include commissioning services, transportation, energizing and training to ensure the most flexible and effective solution. GE's mobile substations are a turnkey solution, adapted to the specific requirements of each customer.

Are GE Mobile substations a turnkey solution?

GE's mobile substations are a turnkey solution, adapted to the specific requirements of each customer. Each project is unique and our project management team works closely with our customers to make sure that the huge range of possibilities are focused to the ideal customized solution.
