

Mobile solar power at Laos construction site

Overview

Can Laos build a floating solar power project?

In 2020, Laos also signed a Project Development Agreement (PDA) with China's Hangzhou Safefound Technology Company to develop a floating solar power project at Nam Ngum 1, with an installed capacity of up to 1,200 MW on an area of more than 1,500 ha. Once put into operation, it will be the largest floating solar power project in the world.

Will Laos build a solar farm?

The construction of the proposed solar farm will take place in three stages over 10 years. In 2020, Laos also signed a Project Development Agreement (PDA) with China's Hangzhou Safefound Technology Company to develop a floating solar power project at Nam Ngum 1, with an installed capacity of up to 1,200 MW on an area of more than 1,500 ha.

What is the largest floating solar power project in the world?

Once put into operation, it will be the largest floating solar power project in the world. In 2021, French energy giant EDF also planned to build a 240 MW floating solar power plant at the Nam Theun 2 hydropower plant on the Nam Theun river.
