

Monaco inverter industrial control equipment price

Overview

Who is Monaco enterprises?

Monaco Enterprises is a small manufacturer and distributor of fire alarm systems. Monaco was founded in 1971 with the goal of providing high quality fire protection systems to the US Government. Some their first products were the C-99A and C-100 conventional panels. Sometime in the late 70s or late 80s, the Firefly was developed.

What products does Monaco offer?

Monaco offers a full line of Fire Alarm, Mass Notification, Annunciation Devices, Control Panels and Devices (Addressable and Conventional), and Central Receiving Systems. Please download our 2025 Monaco Products Catalog (174mb) which includes cut-sheets for our offerings. Please note, this catalog may be updated periodically without notice.

Does Monaco still use the M2 interface?

The M-2 interface is still being used on some MAAP (+) addressable panels. It is still being sold by Monaco as of this writing. The MAAP addressable panels were introduced sometime in the 1990s or 2000s. The MAAP-X voice evacuation panel is currently their flagship.

What kind of detector does Monaco use?

Their products have a very long support period, even after discontinuation. Monaco today mainly uses System Sensor Select™ series detectors (rebranded as "Type I" for CLIP models and "Type II" for AP models) and Honeywell modules that run Monaco's AP (Advanced Protocol). They rebrand many different pull stations, including the BG-12.

What makes a good industrial power inverter?

All of our industrial power inverter products feature high-power IGBT semiconductors and digital circuit design for enhanced life, higher efficiency,

and trouble-free diagnostics. Use of fiber-optic technology ensures faster signal processing, improved isolation and more accurate communications.
