

Moroccan Battery Energy Storage Company

Overview

Does CATL have a battery production base in Morocco?

CATL has already planned over 100 GWh of production capacity at its European factories. Additionally, Sunwoda is also setting up a battery production base in Morocco. The number of material manufacturers investing in Morocco is even larger.

Which Chinese lithium battery companies are based in Morocco?

Since 2023, several Chinese lithium battery industry chain companies, including CATL, Gotion High-Tech, Sunwoda, BTR, Huayou Cobalt, CNGR Advanced Material and Tinci Materials, have collectively invested in Morocco and built factories. The battery industry chain centered around LFP is forming rapidly.

Is Morocco a good country for battery production?

In addition to abundant phosphate reserves, Morocco also possesses metal resources like cobalt and lithium needed for battery production and has cost advantages. Industry estimates suggest that producing lithium batteries in Morocco offers a 36% cost advantage compared to other countries.

What's going on with EV batteries in Morocco?

The battery industry chain centered around LFP is forming rapidly. In June this year, the Moroccan government announced that Gotion High-Tech would invest \$1.3 billion (US) to build a gigafactory for EV batteries.

How much did Morocco invest in a battery factory?

In June, the Moroccan government signed an investment agreement with Gotion for a battery factory with a total investment of 12.8 billion dirhams (\$1.3 billion) and an initial battery capacity of 20 GWh.

Will a Moroccan EV battery plant be a key supplier?

The company said on the official Moroccan government website that the facility aims to be a key supplier to the EV batteries and stationary energy storage markets. The 238-hectare plant at Jorf Lasfar, will have an eventual annual 70 GWh production capacity.
