

Morocco s first solar panel factory

Overview

Morocco Renewable Energy solar projects to be installed between now and 2030 The Moroccan Agency for Solar Energy invited expressions of interest in the design, construction, operation, maintenance and financing of the first of the five planned solar power stations, the 500 MW complex in the southern town of , that includes both and . Construction officially began on 10 May 2013. The project is divided in 3 phases: a 160MW

The first plant, Ouarzazate Solar Power Station, was commissioned in 2016. Morocco has a power cable link to Europe, the Spain-Morocco interconnection, rated at 900 MW when going from Spain to Morocco and 600 MW when going from Morocco to Spain. [2]
