

Mozambique Solar Photovoltaic Panel Project

Overview

Central Solar de Mocuba has increased Mozambique's energy generation capacity by 40 MW and will produce approximately 79 GWh per year. The project's strategic location will reduce.

IN 2016 Scatec Solar and Norfund signed a Power Purchase Agreement that secured the sale of solar power over a 25-year period to the state-owned utility, Electricidade de.

The Mocuba Project was part of the Government of Mozambique's Economic and Social Development Plan for 2015/16. The Mocuba plant was identified as part of a least-cost supply plan to improve the capacity, reliability and diversity of electricity supplies in.
