

Munda container wholesale

Overview

Is Mundra Port a cargo hub?

Mundra port has its own airport planned as an international air cargo hub. Presently the air runway strip is 900 meters which is to be expanded to 4500 meters. The terminal infrastructure at the port is capable of simultaneously handling multiple vessels of different class.

Why is Mundra Port a good port?

Mundra port's rail is connected to the national rail network and hence cargo can be handled for any location in India. Superior rail infrastructure at the port and nation-wide connectivity eliminates multiple handling and results in reduced handling losses.

What are the different types of eco-friendly wholesale containers?

Here is a closer look at the different types of eco-friendly wholesale containers available. Our tin containers are 100% recyclable and are built strong with sleek designs. Tin wholesale containers with lids have the advantage of being more resilient than plastic and paper cartons and more shatter-resistant than glass.
