

Netherlands lithium energy storage system manufacturer

Overview

Lion Storage is a Dutch developer of battery storage systems enabling the global energy transition. We develop, build, transfer, co-invest and operate large-scale stand-alone energy storage projects. Who is Lithium Werks?

Lithium Werks provides cells, custom battery packs, and battery management systems into markets such as stationary energy storage, industrial, commercial marine, and transportation. Using patented technology, Lithium Werks focuses on long-term partnerships with our clients to provide powerful, inherently safe and reliable battery systems.

Where is Lion storage developing a battery energy storage system?

A render of the project in North Netherlands. Image: Lion Storage via LinkedIn Developer Lion Storage has successfully reached financial close on a 1.4GWh battery energy storage system (BESS) set to be developed in the Netherlands.

Is Lion storage a game-changer for energy storage in the Netherlands?

Arno Hendriks, co-founder of Lion Storage, believes the project will be a game-changer for energy storage in the Netherlands and highlights that the technology is investable. "As the first of its kind to secure full project financing, it proves that energy storage is not just viable—it's investable," Hendricks said.

Will Lion storage develop a 1.4gwh Bess in the Netherlands?

Developer Lion Storage has successfully reached a financial investment decision on a 1.4GWh BESS set to be developed in the Netherlands.

Will lithium-based energy storage systems be included in the living environment activities decree (Bal)?

Lithium-based energy storage systems are not expected to be included in the Living Environment Activities Decree (Bal) until 2026. This means there is no

clear assessment framework.

Why should you choose Lithium Werks?

Using patented technology, Lithium Werks focuses on long-term partnerships with our clients to provide powerful, inherently safe and reliable battery systems. Custom battery packs and modules using Best-in-Class components.
