

New Zealand PV combiner box manufacturer

Overview

What are PV string DC combiner boxes?

PV String DC combiner boxes are key components in PV solar power systems, which are placed between solar modules and the inverter. Available in the following variations:.

Who is letop – a professional PV combiner box manufacturer?

As a professional PV combiner box manufacturer, LETOP has ten years of expertise in C&I solar sector, providing safe and reliable product solutions for system integrators and engineering companies. As PV generation technology rapidly advances, large-scale ground-mounted plants are evolving towards higher voltage and larger capacity.

What is a 600v DC combiner box?

600V DC combiner box is LETOP's economical solution designed for small PV systems. It offers 1-6 string inputs and 1-2 string outputs. Supports 600V DC system voltage. It also uses high-quality components to ensure overcurrent and overvoltage protection. Suitable for 5kW-10kW small residential rooftop or small commercial PV systems.

How do I connect the PV string combiner boxes?

To connect the PV strings, the string combiner boxes are equipped with either our SUNCLIX panel feed-throughs or with cable glands on Push-in terminal blocks. SUNCLIX connectors from Phoenix Contact and Push-in terminal blocks combine the advantages of easy installation with reliable and maintenance-free connection.

What is a string combiner box?

String combiner box for photovoltaic systems up to 1,000 V DC for connecting 2x 2 strings. With surge protection (type 1/2), DC switch disconnecter, and cable glands for the input and output side. With its preassembled sets,

Phoenix Contact offers reliable system solutions that protect the inverter directly upstream of the DC and AC voltage inputs.

What is a 1500V DC combiner box?

Fully meets the requirements of 20kW-50kW large residential rooftop and commercial rooftop PV projects. 1500V DC combiner box is a professional solution tailored for large ground power stations. The combiner box supports a maximum of 24 string configurations, it is suitable for 1500V DC system voltages.
