

New Zealand high voltage inverter

Overview

Is GoodWe launching a hybrid inverter in Australia?

Chinese inverter and energy storage solutions manufacturer GoodWe has launched its EHB single-phase, high-voltage, hybrid inverter in the Australian and New Zealand markets.

Who is the best PV inverter supplier in the world?

Ranked among the global top three PV inverter suppliers. Holds the title of the number one residential inverter supplier worldwide. Recognized as the world's largest supplier of user-side energy storage inverters in terms of shipment volume. Today, Growatt's influence extends over 160 countries and regions.

What is a GoodWe ET Series inverter?

The brand new ET Series, from GoodWe, is a three-phase high voltage energy storage inverter that enables enhanced energy independence and maximizes self-consumption through an export limit feature and time of use shifts for reduced electric bills.

What is a high-voltage Haier inverter?

High-voltage Haier inverters include advanced controllers to optimise power output, improve performance in shaded areas, and ensure reliability. Advanced inverter models support complex layouts and easy scalability, accommodating diverse roof orientations and configurations.

What is a hybrid inverter?

Ranging from 5kW to 10kW, this single-phase, high-voltage, hybrid inverter is designed to meet the demand for larger residential energy storage solutions, with enhanced performance, intelligent safety features and back-up capabilities, along with in-built features to make installation quick and easy.

Is Growatt a good inverter supplier?

Proud to be globally favored, Growatt's accolades speak for themselves:
Ranked among the global top three PV inverter suppliers. Holds the title of the number one residential inverter supplier worldwide. Recognized as the world's largest supplier of user-side energy storage inverters in terms of shipment volume.
