

New Zealand lithium battery pack processing

Overview

Who is project lithium?

* Recycled cells are verified to a variance of +/-100mAh of rated capacity We are a two brothers that have a strong passion for electronics and batteries thus we founded Project Lithium. We focus on 18650 battery packs. At Project Lithium we are dedicated to producing the best solutions to your battery needs.

What is a lithium ion battery?

Lithium-Ion batteries (a.k.a., Li-Ion batteries) are the most popular lithium battery designs. In particular, there is a growing demand for Lithium batteries featuring 18650 cells, which have found their way into diverse consumer products—from cell phones and laptops to power tools, vehicles, high-powered LED torches, and doorbells.

Can you re-pack Li-ion battery packs?

*** We can not re-pack Li-ion Battery packs, Li-ion E-bike and Li-ion Power tool batteries. *** Don't throw away your valuable equipment because the batteries won't charge!.

Who is juice lithium battery?

Juice Lithium Battery has established itself as a trusted name in the realm of lithium batteries in New Zealand. Leveraging advanced lithium-ion technology, Juice Lithium Battery specializes in delivering high-performance batteries for automotive, marine, and recreational purposes.

How long does it take to repack a battery?

All batteries are repacked at our Auckland factory and repacking normally takes 2 to 4 days upon receipt of the faulty battery/s. All repacked batteries are tested before returning to the customer. Batteries can be dropped off and picked up from our Auckland factory or we can courier them nationwide.

Why should you choose juice lithium battery?

Whether powering electric vehicles or marine vessels, customers can rely on Juice Lithium Battery to provide reliable and innovative battery solutions that meet the demands of modern applications. Juice Lithium Battery's lithium-ion automotive battery delivers perfect battery performance and reliability for automotive applications.
