

New wind solar and energy storage project in Morocco

Overview

The green light from the Ministry of Energy Transition and Sustainable Development will enable the construction of the Tetouan wind farm and the Tiznit solar photovoltaic (PV) park, which will have a combined annual output of 505 GWh and will supply various Moroccan industries.

New wind solar and energy storage project in Morocco

Qair bags permits for 178 MW of wind, solar in Morocco

French independent renewable energy producer Qair has received authorisation for projects in Morocco that will add a combined wind and solar power capacity of 178 MW.
