

# **Niue small solar photovoltaic power generation system complete set**

## Overview

---

Will Niue generate 80% of its electricity by December 2025?

This project aims to enable Niue to generate 80% of its electricity from renewable energy by December 2025. This afternoon marked the groundbreaking ceremony for the Niue Renewable Energy Project Phase 2. This project aims to enable Niue to generate 80% of its electricity from renewable energy by December 2025.

When will Niue's energy project start?

The initial phase of clearing the surrounding land will be completed by the end of this year, setting the stage for physical construction to commence in early 2025. In 2015, Niue launched the Strategic Energy Roadmap, with the ambitious goal of reaching 80% renewable energy production by 2025.

When will Niue's New Power Station be built?

Today, the Deputy Prime Minister of New Zealand, Rt Hon. Winston Peters is here to break ground on what will become a cornerstone of Niue's renewable energy infrastructure. The new power station, funded through contributions from both Australia and New Zealand, is slated for completion and commissioning by mid-September.
