

Niue sodium ion energy storage battery manufacturer

Overview

Who are the leading sodium-ion battery manufacturers?

As we conclude our exploration of the leading sodium-ion battery manufacturers, it's clear that the future of energy storage is in capable hands. The companies listed here—CATL, HiNa Battery Technology, Natron Energy, Faradion, Tiamat Energy, Northvolt, ZOOLNASM, EVE, Lishen, and Great Power—represent the vanguard of a technological revolution.

Are sodium-ion batteries the future of energy storage?

With companies like NextThing Technologies, Faradion, AMTE Power, and Natron Energy leading advancements, sodium-ion technology is set to redefine energy storage. The industry is moving toward scalable, safe, and cost-efficient battery solutions, making sodium-ion batteries a cornerstone of future energy infrastructure.

What is a sodium battery?

Sodium battery companies specialize in developing energy storage systems using sodium-ion technology as a cost-effective, sustainable alternative to lithium-ion batteries. Key players include Faradion (UK), Tiamat (France), HiNa Battery Technology (China), Natron Energy (US), and Altris AB (Sweden).

How many sodium ion batteries companies are there?

Globally there are 37 Sodium Ion Batteries companies which include top companies like Natron Energy, Peak Energy and Tiamat.

What are the top sodium-ion battery companies in 2025?

Here are the top sodium-ion battery companies in 2025: 1. Contemporary Amperex Technology Co., Ltd. (CATL) CATL stands at the forefront of Sodium-ion Battery innovation. The company's first-generation Sodium-ion Battery boasts an impressive energy density of 160 Wh/kg. Notably, it charges to 80% in just 15 minutes at room temperature.

Why should you invest in sodium-ion batteries?

Investing in R&D for sodium-ion batteries to diversify its product range. Extensive resources and expertise in battery technology, large-scale production capabilities. Aims to integrate sodium-ion technology into its existing product lineup, leveraging its global market position. A Swedish company focused on sustainable battery technologies.

 Efficient
Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 1000V
- 100% Peak Output Power
- 2 MPPT Trackers, 100% DC Input Utilization
- Max. PV Input Current 10A, Compatible with High-Power Modules

 Intelligent
Simple O&M

- IP65 Protection Degree: support outdoor installation
- Smart 1-19 Curve Diagnosis Function: locate wiring faults accurately and automatically detect faults
- DC & AC Type I SPD: prevent lightning damage
- Battery Reverse Connection Protection

 Flexible
Abundant Configuration

- Plug & Play, LPT Switching under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 units in parallel
- AGC Function (Optional): when an error fault is detected the inverter immediately stops operation
