

Nordic Battery Storage Box Processing Plant

Overview

What does Nordic batteries do?

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems. At Nordic Batteries we focus on what is important: safety, reliability and performance.

Where does Nordic batteries build a fully automated battery assembly plant?

With its Industry 4.0 initiative, Nordic Batteries builds a fully automated agile battery assembly plant. The pilot plant is developed in the BATNET-project and will be operational Q1 24. The company has locations in Kongsberg and Høvik outside Oslo.

What makes Nordic batteries a sustainable brand?

Nordic Batteries also emphasizes sustainability in their production methods, using renewable energy sources throughout their manufacturing processes. Their battery designs consider the complete lifecycle, including potential second-life applications and eventual recycling, supporting circular economy principles.

When will Nordic batteries start production?

In 2024, Nordic Batteries initiated test production at their Kongsberg facility, marking a significant advancement in their manufacturing capabilities. The company plans to make final investment decisions for expanded production capacity before summer 2025, with operations scheduled to begin in early 2026.

Are Nordic batteries looking for a development engineer?

Nordic Batteries are seeking a development engineer for mechanical construction and system design. Factor 47 is operative! The pilot line where Nordic Batteries will produce their first battery modules is now officially open

after the visit from former Prime Minister Erna Solberg where she cut the banner to kick it off.

Who invested in Nordic batteries?

Nordic Batteries has received substantial investment from several Norwegian entities. Kongsberg Innovation, through its Pre-Såkorn Fond, provides significant financial backing and technical support. Vardar AS, an energy group owned by former Buskerud county municipalities, has invested in the company.
