

One-to-two solar integrated machine for home use direct sales from manufacturers

Overview

How does a solar energy system work?

From sunrise, the system captures solar energy and delivers it directly to your home through its grid-tied output. Surplus energy is automatically stored for use during peak hours, at night, or in the event of a short-term outage.

What makes Solax x1-ies a smart energy management solution?

Smart energy management via SolaX Cloud enables real-time optimization, while modular design (up to 40kWh) supports scalable home energy solutions. The X1-IES supports up to 200% PV input and EPS output for 10 seconds, enabling superior energy utilization during peak loads.

What is a solar combiner box?

This combiner box has everything you need, circuit breakers, individual fuses for each string, and a surge protection device. Just hook your panels up to this box, and connect this box's output to your All-in-one solar input. What is a PV Combiner Box?
