

Outdoor power product sales plan

Overview

Why is outdoor power equipment so popular?

The current trends of remote and hybrid working models, as well as flexible working hours among businesses in the U.S., have ensured that people have more free time on their hands to indulge in gardening and landscaping, thus strengthening the U.S. market demand for outdoor power equipment.

What are the best marketing strategies for outdoor brands?

Another exciting strategy for outdoor brands is user-generated content (UGC). UGC is when customers or fans create content about your brand, which can be a great way to connect with your audience. You can encourage UGC by hosting contests, using hashtags, or simply asking customers to share their photos and stories.

Why is outdoor marketing so important?

Time outside awaits, thanks to the gear you craft and the journeys you make possible when your marketing hits the mark. From backpacking essentials to kayaking gear, the outdoor industry continues to thrive as more Americans seek restorative powers of nature.
