

Outdoor power supply is super large

Overview

What is outdoor large-capacity portable power supply?

Due to its small size, large capacity, and mobility, the outdoor large-capacity portable power supply is equivalent to a large-scale portable charging treasure for people who work outdoors. It can be used in emergency rescue, emergency power supply, backup power supply, and other use scenarios.

What is a large capacity portable power supply?

The outdoor large-capacity portable power supply has a power output of 220V/500W/1000W/1500W/2000W/3000W, but a large power means larger capacity support, and a large capacity means excellent quality. Take the capacity battery 6000wh as an example, the basic weight is close to 45KG, which is no longer “portable”.

What is an outdoor Uninterruptible Power Supply?

An outdoor Uninterruptible Power Supply is a power solution designed for critical applications where it's essential that equipment stays running in harsh outdoor environments and significant temperature variations, where an ordinary UPS would fail. Trust TSi Power for these applications.

Should you buy an outdoor power strip?

If those two sockets in your outdoor outlet aren't enough to fulfill your outdoor power needs, then you'll want to invest in a good outdoor power strip. These handy appliances can multiply a single socket into six or even 10, allowing you to power multiple strings of lights or various outdoor appliances simultaneously.

Are outdoor power strips weather resistant?

Outdoor power strips come in a variety of sizes, from small three-outlet models up to large 10-outlet beasts. Unlike indoor models, these rugged, weather-resistant power strips can endure extreme temperatures and even

downpours. Understanding what weather conditions an outdoor power strip is rated to handle is key to purchasing the right one.

Are outdoor power strips Wi-Fi Ready?

Some outdoor power strips are Wi-Fi ready, allowing them to connect to your home network. These smart power strips can be controlled via a smartphone app, which is ideal for turning on and off holiday lighting displays.
