

# PV Inverter 325kw

## Overview

---

What is the most powerful string inverter?

Chinese inverter manufacturer Sungrow has launched a new string inverter with a power output of 325 kW, which it claims is the most powerful string inverter ever launched on the market to date. The device measures 1,100 x 890 x 360mm and weighs 110 kg. It offers a reported efficiency of 99.01%, for a European rating of 98.52%.

How many MPPTs does a Solis inverter have?

Solis' largest three-phase, 1500 VDC PV string inverter has 12 MPPT (250, 300 and 350) or 16 independent MPPTs (350K) options that allow for great redundancy in larger systems. Redundancy through a distributed method supports overall system uptime.

How many watts can a sg225hx inverter handle?

According to the manufacturer, the inverter can be used with panels exceeding 600 W in power and modules designed with 182mm or 210mm wafers. "In 2019, our SG225HX shocked the market and so far cumulated over 15 GW shipment worldwide," said Sungrow Vice President Li Shun.
