

Pack battery box

Overview

What is a battery pack?

Battery packs also contain sensors, circuitry, and other electrical and electronic components. Further complicating the task for recyclers is the wide range of battery chemistries employed in the automotive industry (LFP, LCO, NCA, LMO, NMC, etc.), each with its own distinct mix of materials.

What is the Battery Box?

The Battery Box is a block for storing energy for later use. It can hold 2.5 Mega Joules (MJ).

How do I recharge the 12V battery in my arkpak?

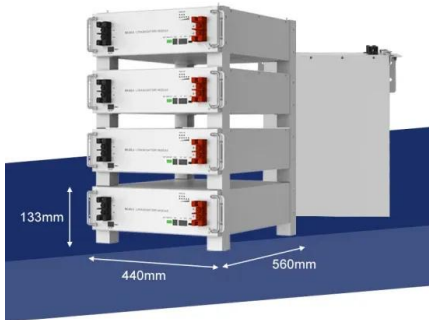

There are 3 easy ways to recharge the 12V battery in your ArkPak Simply plug your ArkPak into the mains power socket at home and ArkPak's built in charger will recharge most 12V batteries (up to 130ah / Group 31) overnight in 12-16 hours.

Can you use a battery box with a VSR?

Using a battery box combined with a VSR is the easiest way to create a dual battery setup in your vehicle. The VSR acts as an isolator, allowing the auxiliary battery (inside the box) to charge directly from the crank battery while the car is running.
