

Paraguay Good Wind and Solar Storage Company

Overview

Does Paraguay have a grid-scale energy storage project?

The capital of Paraguay, Asuncion. The country has not announced any gridscale energy storage projects to-date. Image: CC / Mariano Mantel. Investment firms PASH Global and ERIH Holdings have formed a joint venture (JV) to develop utility-scale solar and battery storage projects in Paraguay.

How does a dry period affect energy security in Paraguay?

Long, dry periods increasingly threaten energy security and impact national income from electricity exports. Paraguay is a net energy exporter with hydro and biomass resources contributing 82 per cent of the country's final energy supply over the last decade.

How can Paraguay benefit from solar energy?

Solar energy, in particular, is seen as a vital addition, taking advantage of Paraguay's abundant sunlight to reduce pressure on its hydropower resources. The government also plans to harness bioenergy through biomass and biogases, tapping into organic waste and agricultural byproducts as fuel sources.

Can Paraguay use natural gas as a transitional energy source?

In addition to its focus on renewables, Paraguay is also looking to natural gas as a transitional energy source. The country's new energy policy includes a project to integrate natural gas into its energy matrix. This would provide a reliable alternative to hydrocarbons while renewable technologies continue to scale.

Can Paraguay diversify its energy matrix and reduce its reliance on hydrocarbons?

The country's success in diversifying its energy matrix and reducing its reliance on hydrocarbons could have far-reaching implications, not just for the

region, but for the global energy landscape. The future of energy in Paraguay is bright—and it is powered by the sun, the wind, and the innovative spirit of its people.

What is Paraguay's wind potential?

The report also highlights Paraguay's wind potential, identified as medium to high quality, which was found to be particularly concentrated in the northwestern region, specifically in the department of Boquerón.
