

Photovoltaic panels delivered to the roof

Overview

Roof-mounted solar panels are photovoltaic systems installed on residential rooftops to capture sunlight and convert it into usable electricity. They consist of multiple solar cells that work together to produce energy.

Photovoltaic panels delivered to the roof

Solar Photovoltaic: SPECIFICATION, CHECKLIST AND GUIDE

Builders that intend to meet both the solar PV and solar water heating RERH specifications should detail the location and the square footage of the roof area to accommodate both technologies.
