

Photovoltaic panels on rural roofs in Nepal

Overview

Following comprehensive on-site assessments and consultations with technical and development experts, UNDP Nepal implemented a pilot solar power based integrated drinking water and agrovoltaic farming system—cultivation under the solar arrays for the first time in Nepal.

Photovoltaic panels on rural roofs in Nepal

Solar mini-grid for rural electrification in Nepal

The installation of the solar panels and the grid itself was delayed because of Covid but it finally took place at the end of 2021. Thanks to the mini-grid, 96 households got ...
