

Photovoltaic power station in Haiti

Overview

Haiti is poised to increase its solar energy capacity by adding 7.5 MW of photovoltaic (PV) energy by 2025. This boost will come from two key projects: the 4.5-MW Jacmel solar power plant and the 3-MW Mirebalais solar power plant.

Photovoltaic power station in Haiti

Haiti

The photovoltaic component consists of 336 modules of 305 Weach, providing a total power of 102.5 kW, which will reduce the carbon footprint on the environment by 120 ...
