

Polish single-glass photovoltaic module prices

Overview

Are photovoltaic panels available in Poland?

Marta Walendzewicz, Board Member of Menlo Electric, explores the availability of photovoltaic panels, trends, and challenges in the Polish photovoltaic market and the importance of choosing the right inverter. As we move further into 2023, the photovoltaics market in Europe and Poland has seen a range of fluctuations in prices.

Where can I buy photovoltaic panels?

The photovoltaic wholesaler Solmix offers the highest quality photovoltaic panels from reliable manufacturers at the lowest prices. In the online store you can order modules by the piece, as well as in pallet quantities. For photovoltaic installers we have also prepared a special container price offer for the purchase of photovoltaic modules.

Is there a demand for photovoltaic inverters in Poland?

As the photovoltaic market in Poland continues to evolve, the demand for inverters in the 20-150 kW range for commercial installations has largely been met with improved availability. However, as mentioned earlier, the market still experiences shortages of inverters above 200 kW, which can result in waiting times of over a year.

Are hybrid inverters a profitable investment in Poland?

The Polish market has yet to see a significant increase in the share of hybrid-type inverters, despite their potential to work with energy storage. Presently, the net-billing settlement regime in Poland does not make battery installation a profitable investment for most, resulting in a low battery attachment rate of under 5% in new installations.

Where can I find ready-made solutions for ground-based photovoltaic systems?

In the PVGroup.pl offer you can find ready-made solutions for ground-based photovoltaic systems. Photovoltaics on the ground based on stands designed and manufactured by PVGroup.pl is characterized by high efficiency and universality of use. Photovoltaics on the ground it is easy to assemble and made of stainless steel.
