

Portugal s 100MW energy storage project

Overview

How much will Portugal spend on energy storage projects in 2025?

Portugal's Ministry of Energy has announced that it has allocated EUR 100 million (\$104.2 million) to 43 energy storage projects which should be installed by the end of 2025. A total of 79 applications were vying for grant support secured under the country's Recovery and Resilience Plan (RRP).

Why is Portugal launching a solar energy storage project?

This initiative aims to enhance the flexibility and stability of Portugal's power supply system amid its record-breaking solar electricity production. On July 31, the ministry announced the allocation of €99.75 million through a call for tenders to install energy storage projects totaling 500 MW.

What does Portugal's energy policy mean for the energy sector?

The Portuguese Ministry of Energy has allocated €100 million for grid flexibility and energy storage projects to be completed by the end of 2025. This initiative aims to enhance the flexibility and stability of Portugal's power supply system amid its record-breaking solar electricity production.

How many MW is a 100MW power plant in Portugal?

The final figure stood at 669MW as one batch of 100MW was only awarded 69MW. While the companies have a contact with the Portuguese national grid operator for 15 years, they have also received perpetual access to the grid, which was part of the reason for the low bids, according to Galamba. "The grid access is a very scarce resource in Portugal.

What is Portugal's power generation capacity?

Power generation capacity is around 22GW. Minister of Environment and Energy Maria da Graça Carvalho said: "This is a significant step towards Portugal's energy independence and towards building a greener and more sustainable energy future.

How many MW of photovoltaic systems will R power build in Portugal?

The Warsaw-based company aims to build up a portfolio of 100 MW of photovoltaic systems in Portugal in the medium term. New investments in solar and battery storage are also planned in Spain. Portugal is a key market for the company. R.Power already operates a portfolio of around 50 MW in Portugal.
