

Portuguese monocrystalline photovoltaic panel BESS

Overview

Who won Portugal's new battery energy storage system tender?

(EUR 1 = USD 1.048) Aquila Clean Energy EMEA, the European renewable energy arm of German investment management firm Aquila Group, announced that it was among the winners in Portugal's latest battery energy storage system (BESS) tender, securing 40 MW across two projects.

What is the Fernando Pessoa photovoltaic project?

We are building the Fernando Pessoa photovoltaic plant in Portugal, the largest photovoltaic project in Europe and the fifth largest in the world. With 1,200 MW of installed capacity, it will be an example of environmental respect and coexistence and will supply renewable energy to 430,000 homes.

Where is the Fernando Pessoa photovoltaic plant located?

The Fernando Pessoa photovoltaic plant in Portugal is set to become the largest photovoltaic project in Europe and the fifth largest in the world. It will be located in the municipality of Santiago de Cacém, near Sines, a logistics hub in southern Europe, and will have Prosolia Energy as a partner.

How much solar power does Portugal have in 2022?

Portugal's cumulative PV capacity hit 2.59 GW at the end of 2022. It aims to install 20.4 GW of solar by 2030. The country has set a goal of at least 80% of electricity production coming from renewable sources by 2050. In November, it enjoyed a weekend of being powered solely by renewables.
