

Power Generation Equipment Container House Procurement

Overview

What are containerized generator / packaged container and enclosure options?

Containerized generator / Packaged container and enclosure options provide alternatives to installations in existing or new buildings. We have significant experience with pre-packaged container and enclosure solutions for engine-generator sets, balance of plant equipment, and switchgear.

Why do you need a containerized generator enclosure?

Our containerized generator enclosures offer unparalleled flexibility, durability, and convenience, making them the ideal choice for various industries and applications. Read on to discover why BMarko Structures is your go-to partner for all your containerized generator enclosure needs. Fill Out Our Contact Form Below To Get Started!.

What is a genset container?

Genset containers, also known as generator set containers, are specialized enclosures meticulously engineered to house and safeguard generator sets. These purpose-built structures provide a controlled environment, shielding the generators from external elements such as harsh weather conditions, dust, and debris.

What is unified power genset?

Unified Power offers containerized generator sets with CHP and Emission control system. Leveraging the expertise acquired during several years of manufacturing CHP/ CCHP Modular containerized gas power solutions. With our genset containers offer optimal performance in various site conditions.

Why do you need a pre-packaged generator?

Pre-packaged containers and enclosures can simplify and expedite installation time, provide sound attenuation and personnel protection inside buildings,

and provide weather protection for outside installations. Unified Power offers containerized generator sets with CHP and Emission control system.

What is a Tier 4 containerized generator?

Our Tier 4 containerized generators are high-powered —500 kW to 1250 kW— units packaged in 30-foot or 48-foot ISO containers.
