

Power generation equipment container house manufacturers

Overview

What is a containerised generator?

Our Containerised Generators deliver robust, high-capacity power from 300–3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, and bespoke configuration to meet your site's exact needs.

What is a containerized generator enclosure?

Our containerized generator enclosures are built to be highly mobile, allowing you to easily transport and relocate your generator equipment as needed. The modular design enables quick assembly and disassembly, making it an excellent choice for temporary power needs or projects requiring frequent relocation.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for $+45^{\circ}\text{C}$. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

Why should you choose genset containers?

With our genset containers offer optimal performance in various site conditions. By maintaining high-quality standards for both the engine and the complete containerized power plant package, we ensure excellent reliability for your power and heat generation needs. Easy to install and disassemble, convenient for maintenance and inspection.

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries have tested the reliability, usability and durability of our containerized

generators. Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user.

What is unified power genset?

Unified Power offers containerized generator sets with CHP and Emission control system. Leveraging the expertise acquired during several years of manufacturing CHP/ CCHP Modular containerized gas power solutions. With our genset containers offer optimal performance in various site conditions.
