

Price of environmentally friendly solar energy system in Mali

Overview

Is solar power a good idea in Mali?

Solar power is a recent development in the country. The government is encouraging the use of it by exempting equipment from customs duties and promising to subsidize the price of solar kits. Without such subsidies, solar energy in Mali is about twice the price of the traditional fossil fuel energy used in cities.

How much does it cost to get electricity in Mali?

Studies have shown that achieving universal access to electricity in Mali would require an investment of around \$1.3 billion to extend networks and create more mini-grids, Sissoko said. Solar power is a recent development in the country.

How many mini-solar plants are there in Mali?

The rural electrification agency says 32 mini-solar plants like the one in Karan are in four regions in Mali's south and southwest of the country, providing power for more than 2 million people, and are run by WeLight and German-owned Africa GreenTec. "We started with 48 connections and now we have more than 200.

How much energy does Mali use?

Mali consumed 60,540,614,000 BTU (0.06 quadrillion BTU) of energy in 2017. This represents 0.01% of global energy consumption. Mali produced 10,816,062,000 BTU (0.01 quadrillion BTU) of energy, covering 18% of its annual energy consumption needs.

Which Mali city is lit by solar-powered street lamps?

The main street of Karan, Mali, is lit by solar-powered street lamps, on Feb. 5, 2025. (AP Photo/Baba Ahmed) A technical agent cleans the mini solar plant's panels in Karan, Mali, on Feb. 6, 2025. (AP Photo/Baba Ahmed) Samba Diakité
