

Production of 9v battery inverter

Production of 9v battery inverter

generating -9v rail from 9v battery , All About Circuits

9v batteries have very limited current capability. While you might use a voltage inverter like an ICL7660, a single battery will last much less than half as long as two batteries ...

Are there small 9v to 9v DC to AC inverters? : r/batteries

That will produce about 0.1 watts of heat when connected to a 9V battery. If its only a few mA then its at most 0.1 watts. Why use a heating plate at all? Get a normal 1/4 watt resistor around 640 ...
