

Rooftop solar charging system

Overview

What is a rooftop solar EV charger?

Imagine the freedom of charging your electric vehicle (EV) without the hassle of public charging stations or fluctuating electricity prices. The Gosun Rooftop Solar EV Charger, a revolutionary rooftop-mounted solar panel system, offers a convenient and sustainable solution for EV owners.

Can a rooftop solar system charge an EV?

Charging your electric vehicle (EV) at home is convenient (no searching for public charging stations) and cost-effective (free) if you use solar. But there are a few things to consider if you want to use your rooftop solar system to charge your EV. The first of these is the capacity (size) of your solar system (ie. how many panels you have).

Why should you buy a GoSun rooftop EV charger?

One of the most significant advantages of the Gosun Rooftop EV Charger is its portability. Unlike traditional charging stations, it literally goes everywhere your car goes. Simply unfold the solar panels wherever you are and plug in your EV, and let the sun do the work. Charge While You Shop: No more waiting around at public charging stations.

What is the GoSun rooftop solar charger?

The Gosun Rooftop Solar Charger is about to revolutionize how we city folks charge our EVs. No more hunting for elusive charging stations or rearranging your schedule to accommodate out of the way charging locations. This nifty device sits right on the roof rack of your car or van, ready to unfold and start charging whenever you need it.

How much does a rooftop solar system cost?

The rooftop solar setup is priced at \$2,950, with a 10-year lifespan and a projected 5X return on investment. The DartSolar system aims to make solar

charging a standard feature in electric cars. DartSolar Electric vehicles (EVs) are becoming more popular, but one feature many EVs lack is solar power for charging on the go.

Does the GoSun EV solar charger work with a roof rack?

The charger is compatible with all EVs and hybrids equipped with a roof rack, making it a versatile addition to any EV driver's arsenal. Durability is at the forefront of the GoSun EV Solar Charger's design.
