

Russian household lithium battery pack

Overview

Who can supply lithium-ion batteries in-house?

If you desire to prototype or assemble battery packs in-house, we can supply cutting-edge lithium-ion cells from leading manufacturers like Panasonic, Sanyo, LG, Samsung, Sony, BAK, Lishen, and others.

Who makes lithium-ion battery packs?

Both provide battery pack assembly and testing. Our battery pack manufacturing centers in Xiamen and Shenzhen provide additional services and the production of lithium-ion battery packs and cells. With over 50 years of combined experience in lithium-ion battery technology, no project is too big for us to handle.

Why do we supply bulk lithium-ion batteries?

Our strong network of partners enables us to supply bulk lithium-ion batteries with an internal emphasis on quality control and customer support. As a dependable lithium-ion battery supplier and battery pack manufacturer, we can deliver reliable energy storage solutions for any application.

Where are lithium-ion batteries made?

China is confidently leading in the introduction of new technologies. As of 2020, lithium-ion battery cells are manufactured at 181 large megaplants (with a capacity of more than 1 GWh), 136 of which are located in China, and only 16 and 10 of them are located in the USA in Europe respectively.

Are lithium-ion batteries the future of home energy storage?

The adoption of lithium-ion batteries is accelerating as renewable energy becomes more prevalent. Among all lithium-ion types, LFP is expected to dominate the home energy storage market due to its safety, longevity, and scalability.

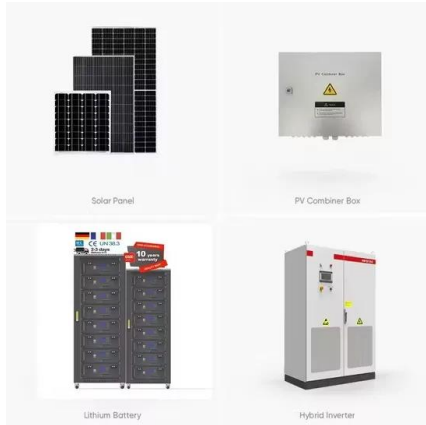

What industries do you supply lithium-ion battery packs?

Our core competency is in the large-scale manufacturing of small to medium format lithium-ion battery packs. Some industries we supply include home energy storage, electric vehicles, medicine, military, computing, power tools, robotics, sensors, and more.
