Overview

Does Samoa have a solar grid?

Samoa's first grid connected solar. Samoa, the first country to access the Pacific Environment Community (PEC) Fund since its inception in 2010 is finally having their first solar photovoltaic grid system commissioned for use in Salelologa, Savai'i.

What is solar for Samoa?

The Solar for Samoa project set the benchmark for quality solar power projects in the South Pacific. The two sites will provide up to 27% of the network power during peak output. MPower has successfully delivered a wide range of renewable and conventional power systems across the region.

Does Samoa have a solar power station?

MPower was awarded a contract to deliver a fully operational 5.0MW solar power station across two sites in Samoa. The first site at Faleolo International airport has a 3MWp solar PV ground mount system. The second site at Faleata Race Track has a 2MWp solar PV group mount system.

Who managed the Solar for Samoa project?

The project was managed by MPower's construction manager, project manager and HSE managers and carried out by local staff (peaking at 220) in Samoa with regular visits from MPower's team in Sydney. The Solar for Samoa project set the benchmark for quality solar power projects in the South Pacific.

How will Samoa's 546kwp solar PV system benefit the government?

The installation of Samoa's 546kWp solar PV grid-connected system is expected to provide significant benefits to the government of Samoa by reducing the use of diesel by around 190,000 litres p.a and realizing costs savings of approximately SAT\$570,000 per annum in a country which

generates 60% of its electricity from diesel.

How long will Samoa's solar project last?

The project expected to last more than 20 years is spread out over three sites in the country's main islands, Upolu and Savai'i. "Today, we are opening Samoa's first solar system, without storage, that can be connected to the grid, to run in parallel with other energy sources like diesel generators.
