

Samoa solar panel project construction

Overview

The Asian Development Bank (ADB) has approved a \$2.8 million loan to Sun Pacific Energy Ltd (SPEL) to expand Samoa's first independent power producer (IPP) project. The project aims to boost renewable energy generation as Samoa faces growing electricity demand and power reliability challenges. Does Samoa have a solar power station?

MPower was awarded a contract to deliver a fully operational 5.0MW solar power station across two sites in Samoa. The first site at Faleolo International airport has a 3MWp solar PV ground mount system. The second site at Faleata Race Track has a 2MWp solar PV group mount system.

How long will Samoa's solar project last?

The project expected to last more than 20 years is spread out over three sites in the country's main islands, Upolu and Savai'i. "Today, we are opening Samoa's first solar system, without storage, that can be connected to the grid, to run in parallel with other energy sources like diesel generators.

What is solar for Samoa?

The Solar for Samoa project set the benchmark for quality solar power projects in the South Pacific. The two sites will provide up to 27% of the network power during peak output. MPower has successfully delivered a wide range of renewable and conventional power systems across the region.

Does Samoa have a solar grid?

Samoa's first grid connected solar. Samoa, the first country to access the Pacific Environment Community (PEC) Fund since its inception in 2010 is finally having their first solar photovoltaic grid system commissioned for use in Salelologa, Savai'i.

Who managed the Solar for Samoa project?

The project was managed by MPower's construction manager, project

manager and HSE managers and carried out by local staff (peaking at 220) in Samoa with regular visits from MPower's team in Sydney. The Solar for Samoa project set the benchmark for quality solar power projects in the South Pacific.

Which land is available for solar energy in Samoa?

For power, spaces in front near and the rear end of the thermal station is available for RETotal land area e from Samoa Land Corporation is 15.5 acres land was designated for Solar Energy. LeaseProperty is legally leased to EPC from Samoa La
