

Sao Tome and Principe Solar System

Overview

Does Sao Tome & Principe have solar power?

According to data from the International Renewable Energy Agency (IRENA), Sao Tome and Principe did not have any grid-connected solar generation capacity installed at the end of 2021. The World Bank says Sao Tome and Principe has an electricity access rate of around 76%, with 92% of the total coming from imported diesel.

Where is Sao Tome and Principe located?

Sao Tome and Principe is located on the African continent, specifically in Central Africa on the archipelago of the same name in the Gulf of Guinea. It is approximately 360-kilometre distance from the coast of Africa.

When will a 300 kW power plant be installed in Sao Tome?

Cleanwatts told pv magazine that it started developing 1.1 MW at Sao Tome airport and 300 kWp at Principe airport in August. It expects to complete the arrays by the end of this year. Another 300 kWp will be installed next year at other communities in Sao Tome.

Sao Tome and Principe Solar System

São Tomé and Príncipe

The project consists of the installation of hybrid solar photovoltaic (PV) systems with solar PV generators and batteries in the country's 45 public-sector healthcare facilities.
