

Senegal Solar PV Site

Overview

The Diass Power Station (: Centrale solaire de Diass) is a 23 MW (31,000 hp) in . The power station was commissioned on 22 May 2022 by the President of Senegal and his guest , the . The solar farm is owned and operated by (Senelec), the national public electricity utility parastatal company. The power station was constructed with loan financing from the

How can solar power plants benefit Senegal?

The project estimates that more than 400 jobs in the towns benefit from the existence of the new solar power plants in Senegal. Because Senegal mainly relies on imported oil for electricity, solar power plants offer a more reliable and sustainable green energy source that costs less.

Who sponsors Senegal's solar power plants?

The PV plants, located in Western Senegal, are sponsored by Engie, Meridiam, and the Senegalese Sovereign Wealth Fund for Strategic Investments (FONSIS). The competitive tendering process was led by Senegal's Energy Regulatory Commission (CRSE). For more information, please read the press release [here](#).

How many people in Senegal will get solar power?

Nearly 540,000 people in Senegal will get access to clean and affordable power following the launch of two solar photovoltaic (PV) plants, financed by IFC, the European Investment Bank and Proparco, under the World Bank Group's Scaling Solar program.

How many jobs will the new solar power plants create in Senegal?

The addition of the solar power plants form part of the World Bank Group's Scaling Solar program and are funded by the International Finance Corporation (IFC), European Investment Bank and Proparco. The project estimates that more than 400 jobs in the towns benefit from the existence of the new solar power plants in Senegal.

Is ten Merina a solar power project in Senegal?

This is Meridiam's second solar power project in Senegal, delivering an additional reliable supply of low-cost and low-carbon electricity. Overall, Ten Merina is a significant contributor to Senegal's installed solar PV capacity and is providing clean and affordable power to more than 200,000 Senegalese people.

Who owns Senegal's solar farm?

The power station was commissioned on 22 May 2022 by the President of Senegal Macky Sall and his guest Olaf Scholz, the Chancellor of Germany. The solar farm is owned and operated by Société nationale d'électricité du Sénégal (Senelec), the national public electricity utility parastatal company.
