

Sierra Leone Wind Power Storage

Overview

Is there a wind energy system in Sierra Leone?

There is a known wind energy system of 5kw in Sierra Leone, located in the Bonthe District, along the south coastline area. Energy consumption in Sierra Leone is dominated by biomass, which accounts for over 80% of energy used.

How can Sierra Leone improve energy access?

This comprehensive strategy aims to increase energy access through a combination of technical and non-technical interventions. A key part of the roadmap is to incorporate Sierra Leone's abundant renewable energy resources, ensuring a secure energy supply to rural communities and boosting the national economy.

What is in Sierra Leone's energy roadmap?

A key part of the roadmap is to incorporate Sierra Leone's abundant renewable energy resources, ensuring a secure energy supply to rural communities and boosting the national economy. One of the most significant projects in this roadmap is the planned expansion of the Bumbuna Hydroelectric Dam.

Can Sierra Leone double its power output to 12MW?

This station, which currently has a generation capacity of 6MW, has the potential to double its output to 12MW. In addition to the Goma Hydropower Station update, Sierra Leone signed an MoU with the European Union earlier this month to deploy 57 solar mini-grids in rural communities that currently lack electricity.

What challenges does Sierra Leone face in developing electricity infrastructure?

However, Sierra Leone faces multiple challenges in developing its electricity infrastructure. According to the Ministry of Energy, the national electrification

rate stands at 26%, with a dramatic drop to 6% in rural areas where the majority of the population resides.

How long will it take to build a hydro-solar plant in Sierra Leone?

The recently signed Memorandum of Understanding (MoU) for this ambitious project outlines a phased approach, with plans to build a 200MW hydro-solar plant. This plant, which is expected to be completed in two to three years, will almost double Sierra Leone's total installed electricity capacity in its first phase.
