

Slovakia invests in new energy storage batteries

Overview

How much money does Slovakia invest in electromobility?

It is worth EUR 1.2 billion and it focuses on battery production. Slovakia secured another significant investment on electromobility. A joint undertaking of the Chinese Group Gotion and the Slovak Company InoBat plans to construct a battery production plant for electric vehicles in the Lower Nitra Region.

Will Slovakia become a leader in the e-mobility sector?

“Exciting to be involved in a new era for Slovakia, becoming a leader in the battery sector to clean energy and e-mobility,” adds InoBat CEO Marian Boček. “GIB’s Šurany factory will be among the largest and most innovative of its kind in the world.

Why is the gotion a good investment in Slovakia?

Ministry of Economy of the Slovak Republic believes that the investment in question will enhance an economic development of Slovakia and will contribute to increase its innovation potential. The Gotion is a pioneer in energy batteries, being also the first company in this industry that entered the capital market in China.

Why should we invest in the Slovak economy?

We expect this cooperation to have a positive effect on our economy in the long term and it will also contribute to further development of the innovation potential of our country,” highlighted the Deputy Prime Minister and Minister of Economy of the Slovak Republic Denisa Saková in connection with the importance of the investment for Slovakia.

Did Slovakia sign a joint venture agreement with the government?

The government and joint venture have now signed an Investment Agreement. The agreement does not come as a surprise. In November 2023,

the companies signed a letter of intent to this effect with the Slovakian government regarding the factory. The partners had already presented the key points of the joint factory in September.
