

Slovakia photovoltaic inverter manufacturer

Overview

How many solar PV installations are there in Slovakia?

The solar PV installations in Slovakia are mostly attributed to the residential installations with 472 MW of installed solar PV capacity as of 2019. The government is seeing a huge potential for solar energy generation in the country and it is reflected in the growing demand in supply for solar panels for roof installations.

Why should you choose Slovak solar?

At Slovak Solar, we believe that progress comes from constant innovation. From day one, we've been breaking new ground in Slovakia's solar energy sector. We were one of the first company in Slovakia to install Building-Integrated Photovoltaics (BIPV).

What is a solar inverter company?

The company specializes in the design and implementation of photovoltaic power plants and systems, offering a range of photovoltaic equipment, including solar inverters. Additionally, they provide smart battery storage solutions, enhancing the stability and security of renewable energy utilization.

What is BIPV & how does it work in Slovakia?

From day one, we've been breaking new ground in Slovakia's solar energy sector. We were one of the first company in Slovakia to install Building-Integrated Photovoltaics (BIPV). We led the way with the first-ever 400kWh Battery Backup System, even before container-based battery systems became mainstream.
