

Solar panel sales in Switzerland

Power Conversion System

- Single-stage three-level modularization
- Multi-branch input to reduce battery series and parallels connection

Overview

Why are solar panels becoming more popular in Switzerland?

The solar photovoltaic (PV) based solar panels represent the largest segment of the Swiss solar energy market due to the increasing commercial and residential installations of solar modules. The Swiss government announced in 2019 that it would achieve net-zero greenhouse gas emissions by 2050.

How much solar energy does Switzerland generate?

In 2022, Switzerland derived 6% of its electricity from solar power. Studies show that installing solar panels on mountaintops in the Swiss Alps could produce at least 16 terawatt-hours (TWh) a year, approaching half of the nation's 2050 solar energy target.

Can solar panels be installed in Switzerland?

Typically, solar panels in Switzerland are mounted on existing infrastructure like mountain huts, ski lifts, and dams, with larger-scale installations in the Alps remaining rare. On September 10, 2023, 54% of Valais voters rejected Alpine solar project proposals due to environmental and aesthetic concerns.

Who is Swiss Solar AG?

SWISS SOLAR AG – is a leading and globally active technology company. It is specialized in innovative systems and production of solar cells and solar modules. From simple beginnings, SWISS SOLAR AG has expanded globally. We now sell our products in more than 100 countries. IBEX 132MWT-GR. IBEX 144MHC-Ei. IBEX 144BF-MHC. IBEX 132MHC-Ei.

How much will the Swiss government spend on solar projects in 2021?

In May 2021, the Swiss government announced that it had allocated CHF 470 million for solar rebates in 2021. The rebates are expected to represent approximately 20% of the investment costs of the solar projects. 1.

When will bifacial solar panels be available in Switzerland?

In February 2022, Megasol Energie AG announced the launch of the 500W bifacial solar module with an estimated power conversion efficiency of 23.2%. In May 2021, the Swiss government announced that it had allocated CHF 470 million for solar rebates in 2021.
