

# **Solar panel smart prefabricated sun room**

## Overview

---

What is a commercial sunroom?

Commercial sunrooms by Solar Innovations ® provide the strength, durability, and customization options second to none in the industry. Solar's glazed structures can be directly on the ground or atop high rise buildings.

How much does a sunroom cost?

The best size for your sunroom depends on how much space you not only have and how much you want to pay. The average cost of a sunroom per foot runs from \$80 to \$400, according to Forbes, and it varies depending on if it's a three-season or four-season room. Typically, sunrooms vary in size from 10 by 20 feet to 16 by 24 feet.

What are the best sunroom kits?

The kits cost less than traditional sunrooms and are great for those not looking to spend as much or those not looking to add on to their home permanently. Fifthroom offers a variety of sizes and styles, including octagon, rectangular, and oval-shaped sunrooms. 6. Conservatory Craftsman.

Can you build your own sunroom?

You can even find build-your-own sunroom kits if you're especially handy. While three-season sunrooms are built using an existing roof or porch cover onto an existing deck or patio, if you're looking to use your sunroom all year, you'll need an HVAC system, insulation, and some foundation work.

Which sunroom company is right for You?

For those craving the most sunlight, consider Global Solarium. The West Coast company will help you bring the best of the outdoors indoors (minus the bugs) and offers in-home consultations to design the right sunroom for your space.

Does adding a sunroom make a good investment?

Adding a sunroom will get you about a 49 percent return on your investment, according to HomeAdvisor, which is about half of what you will likely pay for adding the sunroom. However, the investment return depends on how you look at it.
